Regulation Innovation Special Interest Group

Approved by the FINOS Governing Board
in October 2020

Roadmap

Regulation Innovation SIG Charter

Regulation Innovation

Special Interest Group

<https://github.com/finos/community/issues/66>

The Regulation Innovation SIG will be a **community of people interested in creating open source solutions for regulatory and compliance issues**. Creating open source solutions to regulatory compliance is particularly important because the **market is currently using custom-built, one-off solutions, that are expensive, inefficient, and costly to manage and update** over time.

Proposed Lead

Lead: David Ehrich, AIR
Co-Lead: Ian Hollowbread, ING Bank

Confirmed Participants

Simon Holt, JPM
John Mark Walker, Capital One
Simon Hull, Adaptive
David Cowland, Fidelity

Related FINOS Initiatives (if applicable)

[Alloy](#)
[Cloud Service Certification](#)
[Morphir](#)
